| Sukoharjo, Jawa Tengah | [Portofolio](#)

As a current computer science student, I am focused on advancing my skills to become an advanced web developer. I am passionate about continually seeking opportunities to learn and grow in the field. I am open to gaining practical experience through internships or full-time positions that will allow me to apply my knowledge and contribute to innovative projects.

WORK EXPERIENCE

Software Engineer (Frontend) Internship | Hash Rekayasa Teknologi

March 2024 - Aug 2024

- Contributed to the development of innovative features for the Tenant section of a web app, allowing tenants to manage their products, create coupons or discount vouchers and receive real-time orders.
- Implemented Figma designs into fully functional web pages, ensuring seamless integration of UI/UX elements with interactive features.
- Actively participated in maintaining and debugging a product integrated with GraphQL.
- Developed a responsive dashboard featuring charts and tables that provide valuable insights for tenants, with functionality for exporting data.

PROJECTS

Portofolio

[Portofolio](#)

A dynamic and interactive portfolio web application designed to showcase creativity and technical expertise. It features smooth animations, seamless scrolling, and a responsive design, offering an engaging user experience.

Ruumapedia

[Ruumapedia](#)

I have developed a responsive ecommerce site with Stripe integration for seamless checkouts, powered by Sanity for efficient product data management. It features a user-friendly design and convenient dark mode for enhanced browsing.

Image Sharing App

[ImageSharing](#)

Successfully developed a full stack web application that features image upload and deletion capabilities with responsive UI, allowing users to view and download images. The application incorporates a robust authentication system implemented with NextAuth for enhanced security.

Sukses-Abadi

[Github Link](#)

Participated as a full-stack developer, I contributed to backend coding, implementing CRUD operations for posts using Next.js 13. Simultaneously, I crafted intuitive user interfaces for the admin dashboard and product review section on the frontend.

EDUCATION

Duta Bangsa University

Aug 2023

Undergraduate student of Software Engineering Major

Rakamin Academy

Jun 2023 - Oct 2023

Fullstack Web Developer

- Learned Fundamental of Web Programming with Javascript as a core of programming language
- Studied backend development using Express.js and learned how to interact with incoming and outgoing data
- Additionally, delved into the fundamental aspects of frontend development using React.js and utilized Next.js as the framework.

SKILL

- **Soft Skill:** Work in Team, Problem solving, Continuous Learning, Adaptability
- **Web Development:** HTML, CSS, JavaScript, TypeScript, React, NextJS, RestAPI, GraphQL ,TailwindCSS, ShadcnUI, DaisyUI, MaterialUI, Zustand, Axios, SWR, Hasura, Apollo, Codegen, Next Auth, Vercel
- **Backend Development:** NodeJS, ExpressJS, Postman
- **Database:** PostgreSQL
- **Design:** Canva
- **Tools:** Visual Studio Code, Git

Certification

- **Frontend Developer (React) by HackerRank**
- **Javascript (Intermediate) Certificate by HackerRank**
- **Javascript (Basic) Certificate by HackerRank**
- **React (Basic) Certificate by HackerRank**
- **Belajar Dasar Pemrograman JavaScript:** Program by dicoding where I studied the fundamentals of the JavaScript language, and completing each knowledge test.
- **Full Stack Web Development Batch 3 by Rakamin**
